The Board of Trustees recognizes that many students, faculty, staff and community of the Community College District 522 are parents whose opportunities are enhanced by the provision of an on-campus Child Care Center(s).

The Kids' Club Child Care Center(s) serves as:

- A moderately priced facility where students, faculty and staff may leave children.
- An employment and learning opportunity for students.
- A childcare setting that provides a variety of activities to assist in the physical, social, mental, and emotional development of the children.
- A source of childcare for children enrolled in summer programs at the college.
