---

**DATE AMENDED:** 12/06

---

It is the policy of the Southwestern Illinois College Board of Trustees that planned activities of the college shall be conducted as scheduled whenever possible.

The Board recognizes that inclement weather conditions or other unforeseen occurrences can intervene to disrupt normally scheduled activities. The Board of Trustees delegates to the College President the responsibility for making decisions to suspend or alter normally scheduled activities. In making these decisions, the College President is to consider the extent to which the unforeseen or predicted conditions affect the ability of students, faculty, and staff to travel and to utilize college facilities in a safe manner.
